On-farm Renewable Energy Generation Workshop

Is this the right workshop for you?

1) Do you want to know more about on-farm anaerobic digestion (AD)?
   - Yes  ✔  No

2) Do you get contacted by farmers interested in pursuing on-farm anaerobic digestion?
   - Yes  ✔  No

3) Do you find yourself in the position of being interviewed about anaerobic digestion, and not knowing what to say?
   - Yes  ✔  No

... DID YOU ANSWER YES? THEN COME TO THE RENEWABLE ENERGY WORKSHOP AND AD SYSTEM TOUR!

An AD system tour in the morning will give participants a chance to view the recently constructed on-farm AD, the first AD designed by this Canadian company to be built in NYS.

The afternoon session will provide a basic overview of on-farm AD in a classroom-format in order to help you to:
- better interact with interested farmers
- support legislation that directly supports on-farm AD, and/or
- provide current and accurate information to the public and to the media.

Registration required

The Cornell PRO-DAIRY program’s Dairy Environmental Systems group and the American Dairy Association and Dairy Council (ADADC) will be presenting this workshop:

When:  May 11th, 2012
  9 am – 11 am: AD tour
  11:30 am: Lunch ($15)
  12:30 pm – 2 pm: Workshop

Where: Wagner Farm and the CCE Rensselaer County
